The Studio

Our podcast studio is fitted with top of the range audio and video equipment. It is fully soundproofed to reduce background noise with a comfortable and homely feel and aesthetic.

Located within Un.titled studio business park in Salford we have access to additional amenities including hair and makeup, lighting hire, audio hire and more.

Recording

All of our packages include one of our in house studio engineers to ensure your podcast runs smoothly and is of the highest quality. Our engineers will be on hand to help operate any equipment and facilitate recording and camera operation.

Our price list includes equipment hire, studio time, editing, mixing and mastering to a professional standard.

Assets will be returned within a week of recording via digital download. Raw video footage may be collected in person with supply of personal hard drive.
